Introduction

This document presents statistics of the Graduates for the April 2012 graduation as part of the graduation information. A total of 1769 awards were offered to 1518 graduates of whom 905 were females. These graduates met the graduation requirements and were awarded with degrees, diplomas or certificates. The awards are categorised in terms of Award types, Schools and Departments. Comparisons between Faculty schools, Departments, Gender and Offering types are also presented.

The data was collected from the faculty officers and forwarded to the MIIR office via emails. The information was analysed and presented in charts and tables.

The document comprises six sections. Section 1 presents the graduates per qualification type awarded and qualification type registered. Section 2 presents awards by offering type and Section 3 shows awards offered per School. Section 4 and 5 illustrates awards per School, Qualification Type awarded and Awards per School, Qualifications Registered and Qualification types awarded respectively. Finally, Section 6 presents Nationality, Age and Marital Status of the graduates.

1. Graduates per Qualification Type Awarded and Qualification Type Registered

This section presents the graduates per Qualification type awarded and Qualification type registered (Table 1.1). A comparison between gender of the graduates is also shown per Qualification registered (Table 1.2).

Table 1.1: Awards per qualification type awarded

Qualification type awarded	Females	Males	Grand Total	Percentage
Master degree	3	1	4	0.2%
Honours degree	22	22	44	2.5%
Bachelor degree	344	188	532	30.1%

Total	1069	700	1769	100.0%
Percentage	60.4%	39.6%	100.0%	

Table 1.1, above shows the number and the percentages of awards given to graduates per Qualification type awarded by gender. The highest Award type were Diplomas 33.4%, followed Certificates and Bachelor's degrees with 30.8% and 30.1% respectively. A few Honours degrees 2.5% were awarded, and 0.2% Master degrees. More than 60% of the graduates per qualification were females.

Table 1.2, above clearly indicates that a total of 1769 awards were issued per qualification registered. The students who registered for differed programme types were awarded with a completed programme qualification or different exit qualification.

2. Awards by Offering Type

This section presents the awards per Offering type and Gender (Table 1.2). A distinction is drawn between the Offering types and Qualification types in Table 2.2.

Table 2.1: Awards per Offering Type and Gender

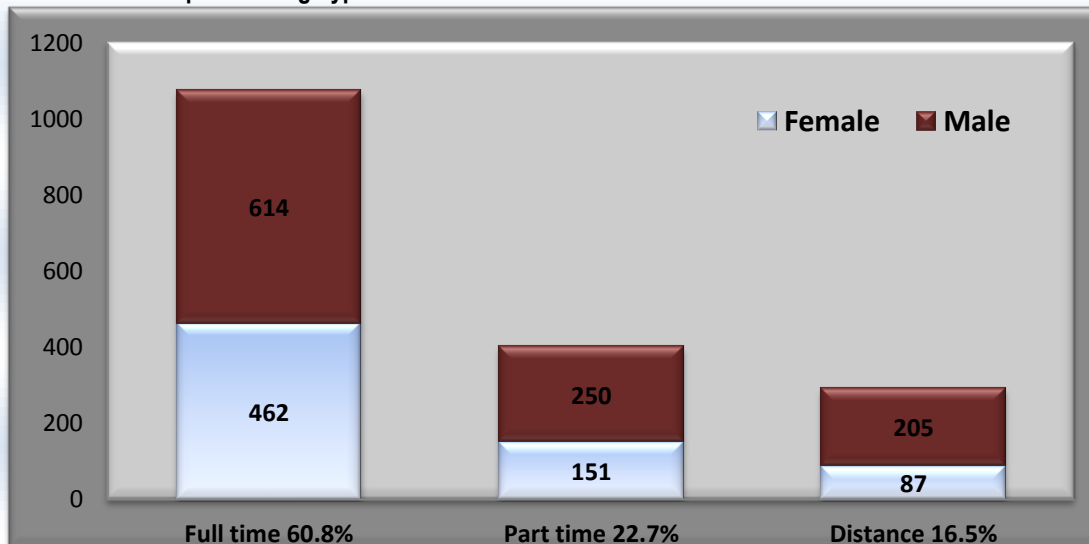

Table 2.1, shows that 1769 awards, of which 60.7% were issued to fulltime students, 22.7% issued to part-time students and 16.5% issued to distance education students.

Table 2.2: Awards per Offering Type, Qualification Type Awarded per Gender

Offering Type	Award type	Female	Male	Total

5. Duration of Period of Study per School, Award Type and Gender

This section presents the average duration of study in years per qualification awarded, Offering Type and school divided in gender denominations (Table 6.1-6.3). The average time to complete each qualification is calculated by using the total number of years each student is registered at the Polytechnic of Namibia. The student may have been registered for and/or completed another award during this time.

Table 6.1 Duration of study per Qualification Type awarded and Gender
